

# Renuo Upload

A modern, open source,  
scalable upload solution.

# Agenda

- Problem
- Alternatives
- Disadvantages of conventional solutions
- Architecture / functioning
- Demonstration

# Problem

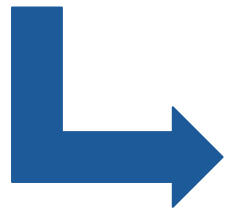

- Upload is requirement for many projects
  - Customer uploads images / PDF / ...
- Has to be implemented every time
- Conventional solutions don't feel right

# Solutions

- Conventional solutions
  - Paperclip
  - CarrierWave
- “New” solutions
  - Cloudinary
  - Blitline

# Disadvantages of conventional solutions

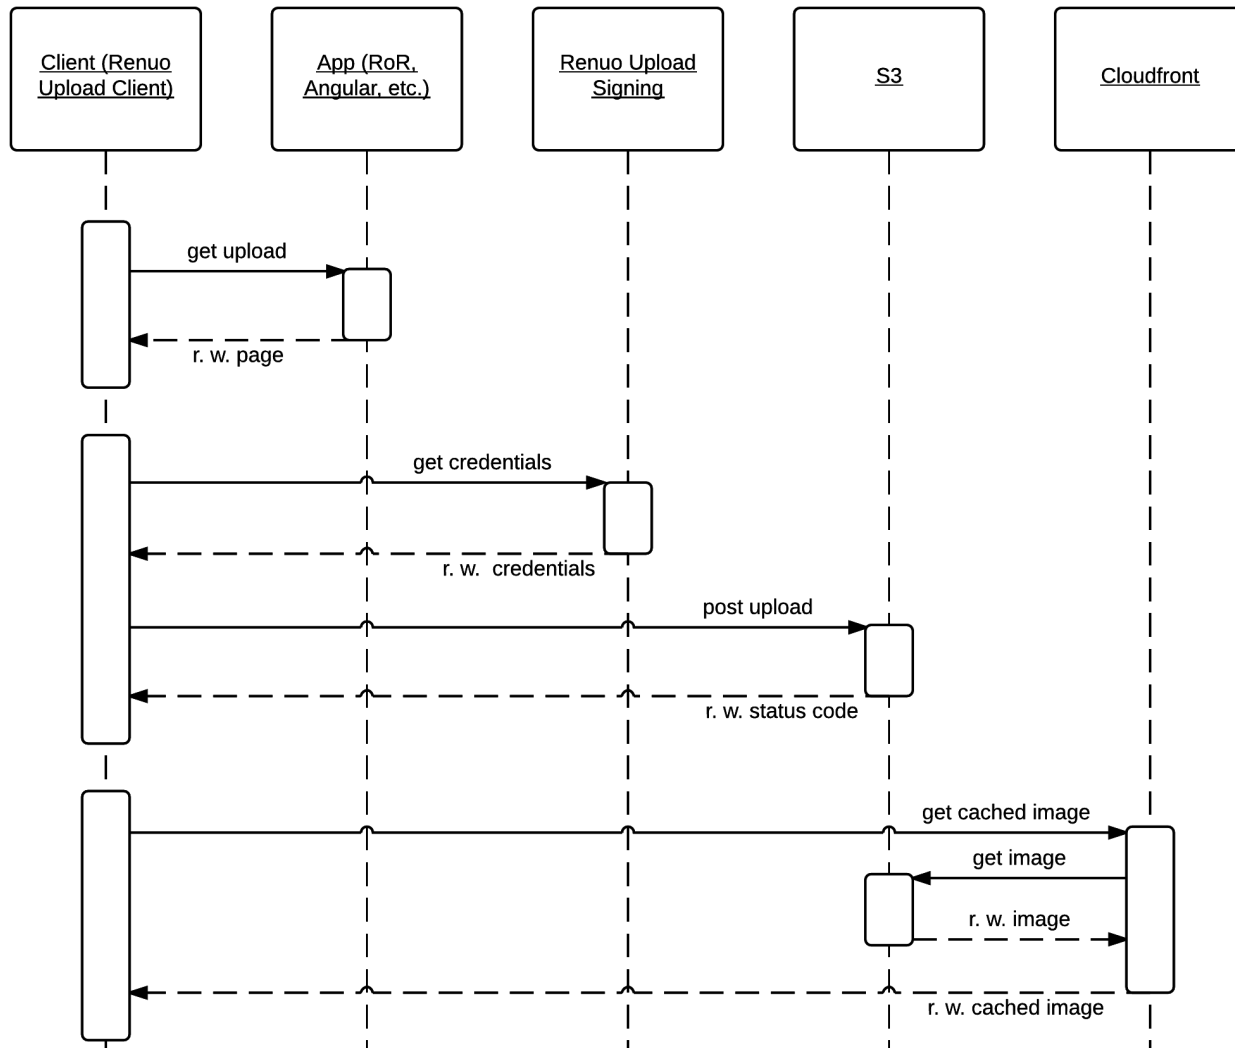

- Time consuming setup (for every new project)
  - S3 Bucket
  - Cloudfront Caching
- Expensive, burdens the server (eg. Heroku)

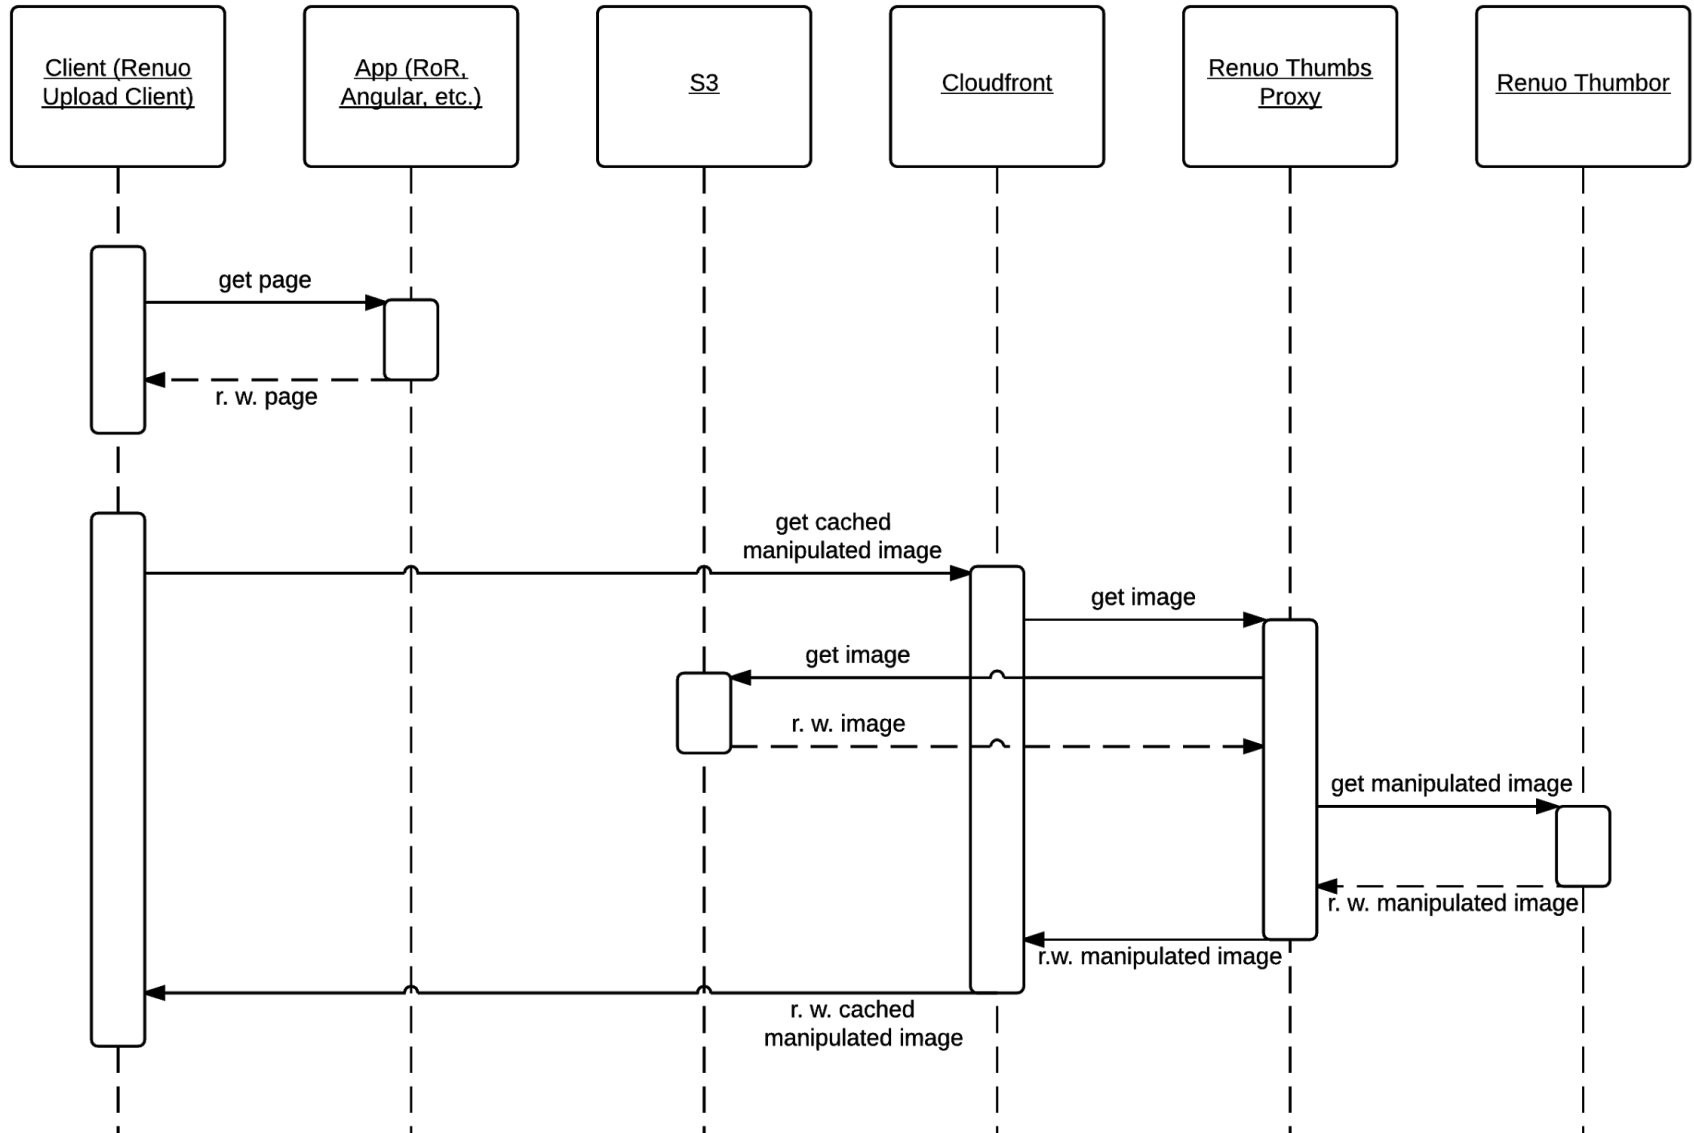

That's why we decided to create  
Renuo Upload

So we built  
Renuo Upload!

# Renuo Upload - Upload of an image

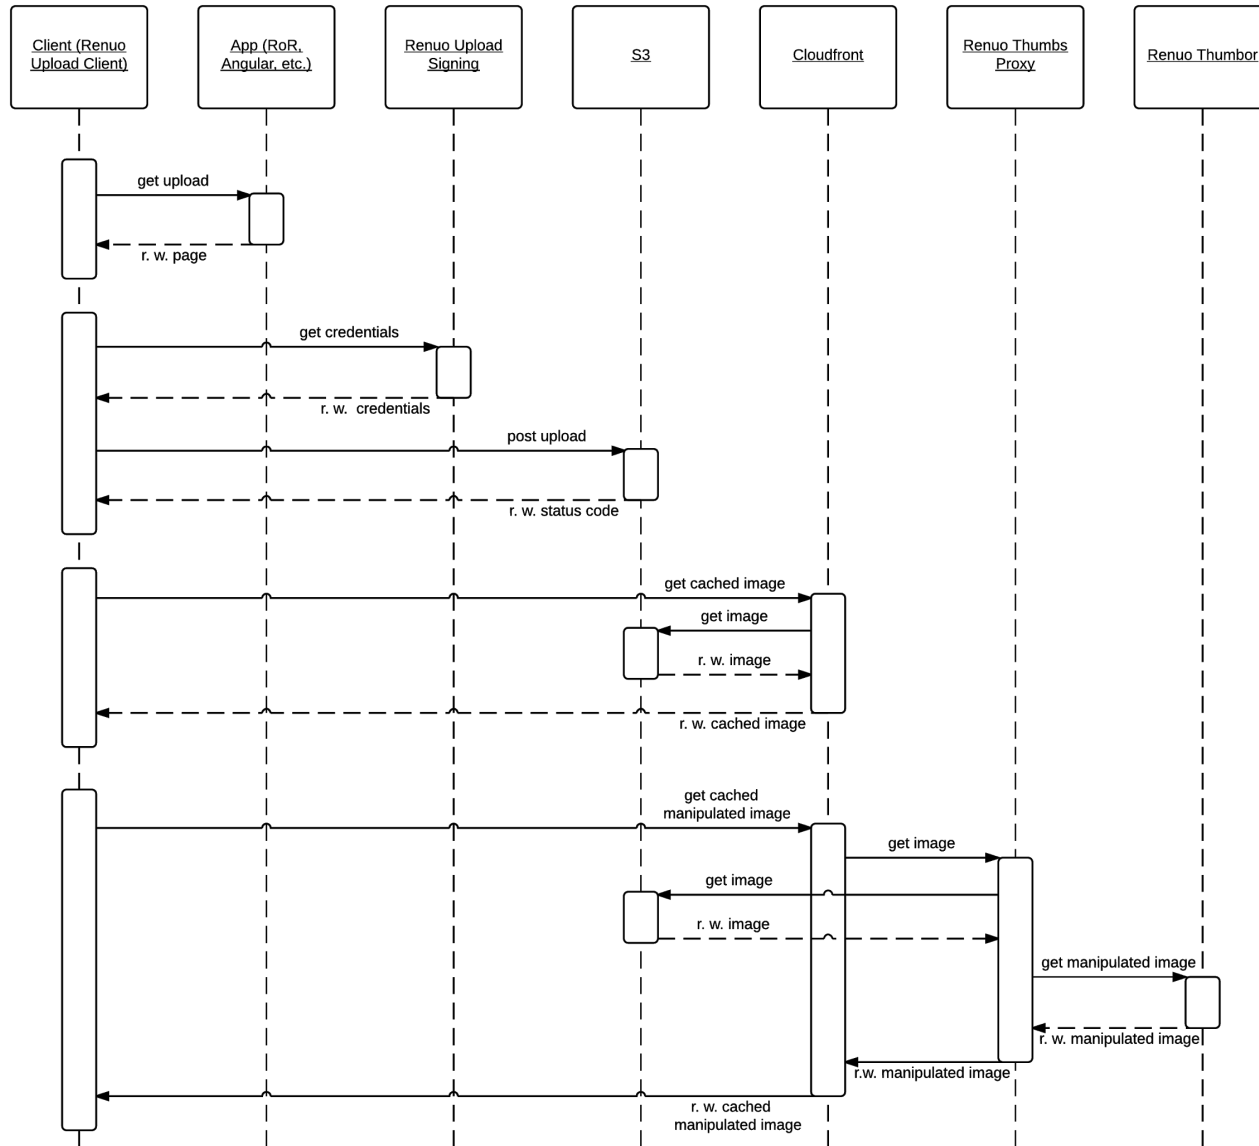

# Renuo Upload - Image manipulation

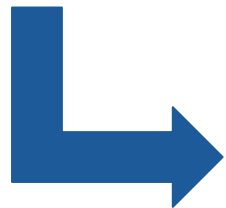

# Renuo Upload - Combined

# Demonstration

- Upload of multiple images
- Image processing

Let's look at how it works in action.
